Dear Chief Byrd:

The House Select Committee on Assassinations is interested in examining all the material, including but not limited to documents, memoranda, summaries, reports, recordings, etc., that your office possesses arising out of the assassination of President John F. Kennedy.

The committee is also interested in obtaining an itemization of all such material that had been in your office's possession arising out of this assassination, but which has been turned over to any other person or agency.

Would you be kind enough to respond no later than October 20, 1976, as to your willingness to comply with the committee's request for such examination and itemization?

Sincerely,

Richard A. Sprague  
Staff Director and Chief Counsel  
Select Committee on Assassinations
